Edventure More
SFUSD Information Technology Department
Western Addition Community Technology Center (WACTC)

Workshop Topics

**Cyberbullying: Crossing the Line:**
Learn to distinguish good-natured teasing from a serious form of cyberbullying

**Digital Footprint—What Never Goes Away**
The permanency of online profiles and information

**Internet Websites: Truth & Lies**
Learn to judge the trustworthiness and usefulness of websites

**Scams and Schemes**
Identity theft, online scams and how to guard against them

**School Loop**
Learn how to use School Loop.
*A registered account is recommended before attending these sessions. Contact your school for more details.*

**Technology in the Classroom**
The use of digital devices in SFUSD classrooms

**Understanding Your Student’s Use of Digital Media**
Role of digital media in students’ lives

For questions and pre-registration (for sessions which state this requirement):
mcgaryr@sfusd.edu
FAMILY FUN NIGHTS!

Pre-register to attend these sessions with your student!

Space is limited.

**CODING (Programming)** You and your student will learn the basics of coding and develop an application for computer or phone.

**Wednesday, January 28, 2015 from 6-8pm**
*Western Addition Community Technology Center, 1003A Turk St., SF*  
Pre-registration required.

**MAKER STUDIO** Experience the emerging maker movement in education that combines science, art, technology and a creative design mentality. You’ll work as a team with your student to practice basic maker skills like soldering and circuit assembly to create gadgets that light up, move or make sound.

**Wednesday, March 11, 2015 from 6-8pm**
*Location TBA*

Coming in January 2015 (locations TBA): Wearable Electronics (29th) and Digital Music (21st) workshops!

---
